335441	2	1-7/8	1/2	1-1/2	1-1/2	3/8

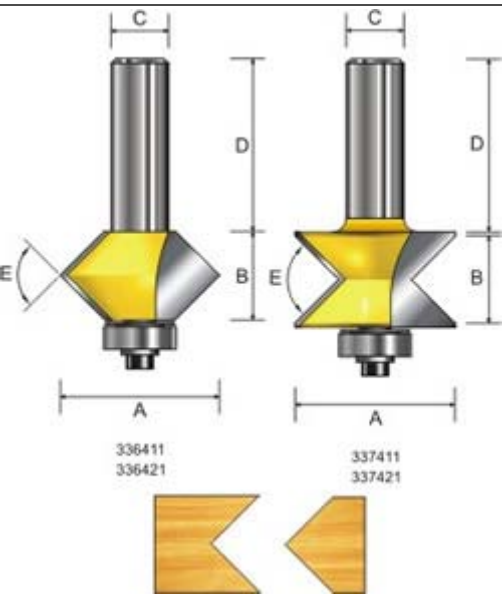

Name: EDGE V-GROOVING BITS

Model:336 / 337 SERIES

FEATURES:

Two flutes, 1/2" shank

Here is a simple and economical way for you to make your own edge. Simple set the height of the female groover (#336) in your router table so that the point is centered on the wood panel and make the cut. Now using the male groover (#337) in your router table, set the height of the bit so that the center point of the bit matches the center point of the wood panel and then cut off the wood stock material. Glue the two pieces together and flush trim the edges if necessary.

**Specification:**
